DEVELOPMENT

ANNUAL REVIEW
1983 - 84

August, 1984

MESSAGE FROM THE HONOURABLE HUGH PLANCHE

The 1983-84 funding year marked the tenth anniversary of Alberta's international assistance program. During those ten years the Government of Alberta contributed a total of over 46.5 million dollars to Canadian Non-Governmental Organizations. This financial assistance supported a total of 2,372 developmental and emergency relief projects conducted by Non-Governmental Organizations in the world's less developed countries. I regard this as a notable and significant achievement on the part of the people and government of a Canadian Province. Through project support there is hardly a corner of the less developed world which Albertans have not reached out and touched in a spirit of neighbourliness and helpfulness.

1983-84 was the busiest year in the program's history. I was pleased to be able to approve a total of 468 projects carried out in 80 countries. These projects were sponsored and administered by 74 Non-Governmental Organizations. Total funds disbursed amounted to \$6,998,889.00.

The co-operation received from Non-Governmental Organizations in the program's administration has been of a very high calibre. I wish also to express gratitude and appreciation for the countless number of Alberta volunteers and supporters whose efforts year after year make the whole program possible.

Hugh Planche
Minister

**ALBERTA AGENCY FOR INTERNATIONAL DEVELOPMENT
ADMINISTRATIVE POLICY GUIDELINES
FOR THE PROGRAM OF FINANCIAL ASSISTANCE TO
NON-GOVERNMENT ORGANIZATION (NGO)**

PURPOSE

The purpose of this program is to provide financial assistance to Non-Government Organizations (NGOs) for the support of projects and programs of developmental assistance and/or emergency relief in the less developed countries.

DEFINITION OF NON-GOVERNMENT ORGANIZATION

For the purpose of this program a Non-Government Organization (NGO) is defined as:

1. A body corporate incorporated under the laws of Canada or an Act of the Alberta Legislature.
2. A body corporate whose objects of incorporation include carrying on developmental assistance and/or emergency relief projects in the less developed countries.
3. A body corporate which has been assigned a charitable tax number by the Department of National Revenue of Canada.
4. A body corporate actively engaged in projects and programs of developmental assistance and/or emergency relief in the less developed countries.
5. A body corporate which received voluntary contributions from the residents of Alberta for purposes of development assistance and/or emergency relief in the less developed countries.
6. A body corporate which has appointed a resident of Alberta as its Authorized Alberta Representative, authorized on its behalf to sign and execute documents required by the Alberta Agency for International Development and to receive grant cheques issued by the Government of Alberta.

ELIGIBILITY TO APPLY FOR PROJECT FINANCIAL ASSISTANCE

To be eligible to apply for project financial assistance under this program a Non-Government Organization (NGO) shall:

1. Provide the Alberta Agency for International Development with the following documentation:

- (a) a copy of its articles of incorporation and/or registration under the laws of Canada or an Act of the Alberta Legislature;
 - (b) a copy of its most recently amended constitution and by-laws;
 - (c) a copy of its most recent Annual Report;
 - (d) a copy of its most recent and current audited financial statement;
 - (e) a completed Annual Information Return Form signed by the principal appointed officer of the NGO; and
 - (f) a Statutory Declaration executed by the NGO's Authorized Alberta Representative declaring the total amount raised in Alberta for purposes of developmental assistance and/or emergency relief (excluding government grants) by the NGO during its most recent and current audited fiscal year.
2. Provide, if requested, satisfactory evidence that it conducts its fund raising in such a manner that its members, constituents, donors and contributors know they are contributing for purposes of developmental assistance and/or emergency relief in the less developed countries.
 3. Provide, if requested, satisfactory evidence that it is managed efficiently and competent to carry out projects and programs in the less developed countries.
 4. Agree that the Minister or his designated representatives may audit the financial records of the Non-Government Organization at any time deemed necessary by the Minister.

AUDITED FINANCIAL STATEMENTS

For the purpose of this program audited financial statements are defined as:

1. Financial statements upon which as independent public accountant as a holder of a recognized professional accounting designation such as: C.A., R.I.A., C.G.A., or a similarly qualified individual has expressed his/her opinion as evidenced by his/her certificate attached to the financial statements.
2. In special circumstances and at the discretion of the Executive Director of the Alberta Agency for International Development, for small localized charitable groups/ societies where the expense of an audit as defined in (1) would impose a financial burden, an audited financial statement may be defined as a financial statement on which

two members of the group/society, appointed or elected for that purpose, have performed an independent review of transactions to determine the quality of the financial information presented by the Secretary/Treasurer of the group/society. Evidence of such review must appear directly on the financial statement and should show:

- (a) date the review was performed;
- (b) certification that such a review has been performed in a conscientious manner;
- (c) that the financial statement accurately reports all financial transactions for the period indicated; and
- (d) signatures of the two appointed or elected members.

PROJECT FUNDING PRINCIPLES

The following Guidelines apply to the provision of grant funds:

1. The financial assistance available to an NGO in any Alberta Government fiscal year will be based on the net amount the NGO raised in Alberta for purposes of international developmental assistance and/or emergency relief in the course of its most recent and current audited fiscal year.
2. At or near the beginning of each Government of Alberta fiscal year each eligible NGO will be issued a Grant Level Figure indicating the total financial assistance available to it for project support in that fiscal year.
3. Financial assistance will be provided to an NGO only on a project-by-project basis and only for specific and identifiable projects and programs.
4. NGOs requesting project financial assistance from the Alberta Government are requested to make the maximum use of Alberta products in these projects wherever such use is appropriate and feasible.
5. Total project funds received by an NGO in any Government of Alberta fiscal year normally may not exceed the net amount raised in Alberta for purposes of international development assistance and/or emergency relief in the course of its most recent and current audited fiscal year.
6. Five percent (5%) of the total Alberta Government budget for international assistance in each fiscal year will be reserved for use in special circumstances to be decided by the Minister Responsible.

APPLICATIONS FOR FUNDING

1. A Non-Government Organization (NGO) which is recognized as a Non-Government Organization (NGO) as defined under the terms of this program and has deposited the acceptable documentation with the Alberta Agency for International Development may submit applications for project funding.
2. Each application for project funds shall:
 - (a) be on the form prescribed for this purpose by the Minister;
 - (b) be submitted by the NGO requesting the project funds;
 - (c) provide sufficient detail to show that the project is financially and economically sound, is well accepted in the country concerned and that the objectives are realistically attainable within the resources and time available;
 - (d) be accompanied by a Statutory Declaration declared by the Non-Government Organization's authorized Alberta Representative before a Commissioner for Oaths or Justice of the Peace attesting to;
 - (1) his/her name and position,
 - (2) the name of the Non-Government Organization,
 - (3) his/her knowledge of the application,
 - (4) the amount being requested,
 - (5) the purpose for which the funds are requested, and
 - (6) the amount being contributed to the purpose by the Non-Government Organization.
3. Non-Government Organizations (NGOs) submitting several project applications in each fiscal year are required to space these submissions at "reasonable intervals" throughout the year.
4. Except in special circumstances or emergency situations, consideration will not be given to applications received in the office of the Alberta Agency for International Development later than FEBRUARY 15TH of each fiscal year.

ISSUANCE OF CHEQUES

All cheques issued as project grants shall:

1. Be made payable to the legal name of the Non-Government Organization (NGO) and be addressed to the authorized Alberta Representative of the Non-Government Organization (NGO), and
2. Be sent directly to the payee.

REPORTING

1. Upon receipt of a project grant from the Government of Alberta the NGO will be issued a GRANT ACCEPTANCE FORM. The NGO will immediately complete this form and send it to the Alberta Agency for International Development.
2. For each project for which funds are received, the NGO shall report every six months to the Alberta Agency for International Development on the progress of the project, until such time as the project, or identifiable segment of the project funded by the Government of Alberta, is complete. PROJECT PROGRESS REPORT forms will be issued to the NGO for this purpose.
3. Upon completion of the project, or identifiable segment of the project to which Alberta funds have been applied, the NGO shall submit a final report to the Alberta Agency for International Development.

EXCEPTIONS AND CONDITIONS

1. Funds under this program are not available for purposes of defraying administrative costs incurred in Canada by a Non-Government Organization (NGO).
2. No portion of Government of Alberta project grant funds may be used for a purpose other than that stated in the Statutory Declaration and Project Application Form without the prior written permission of the Minister.
3. No portion or percentage of Government of Alberta project grant funds received by an NGO shall be rebated, paid or contributed to another Canadian International Assistance Agency as a donation, payment or fee for services rendered without the prior written permission of the Minister.

4. Any portion of Government of Alberta project funds not used for the purpose for which they were originally approved or for another purpose with the prior written permission of the Minister, shall be returned to the Provincial Treasurer of the Government of Alberta.
5. The Government of Alberta expects that all interest or other income earned on project grant funds which are held by an NGO pending implementation of the project for which the funds were granted shall be applied to the purpose for which the funds were originally granted, or to another purpose with the prior written permission of the Minister.
6. Delinquency by an NGO in furnishing receipts, reports, or other project information as requested pertaining to grants which have been received may result in a request that such grant funds be returned to the Provincial Treasurer of the Government of Alberta and will have a direct influence on decisions to approve future project applications.

ACKNOWLEDGEMENTS

1. NGOs receiving project financial support under this program are expected to acknowledge this support in annual financial statements and annual reports.
2. Recognition of Alberta financial support is also expected from time to time in NGO news releases, brochures and other publicity materials.
3. Recognition of Alberta financial support is expected in the less developed countries wherever such recognition would not jeopardize the acceptability or success of the project.

APPROVAL

1. Submission of required documentation, Applications Form, and Affidavit should not be interpreted by an NGO as constituting approval of the project for which application is made.
2. Normally an application for project grant funds will be deemed approved when it has been recommended by the Executive Director, Alberta Agency for International Development, or officially designated alternate, by the Deputy Minister or officially designated alternate, and has been approved by the Minister or the officially designated alternate.

AVAILABILITY OF FUNDS

Funds available for project support under this program, regardless of the net amount raised in Alberta by the Non-Government Organization (NGO) in the course of its most recent fiscal year or the amount the NGO is contributing to the project, shall be contingent upon:

1. the amount of funds voted for the program by the Legislative Assembly of Alberta;
2. the relative merit of the project for which funds are requested; and
3. the performance of the Non-Government Organization (NGO).

PROVISO

Notwithstanding any of the foregoing the Minister reserves the right to use personal discretion with respect to:

1. the eligibility of a Non-Government Organization (NGO) to receive project funds;,
2. the amount to be granted to each project;,
3. the total amount to be granted to each agency in any fiscal year; and
4. special terms and conditions which may be attached to individual project grants.
